### Remarks

The foregoing amendments to the claims, Specification, and Drawing have been completely responsive to Examiner's objections and rejections. By their very nature, the amendments to the Specification and Drawing have added no new matter and the amendment to the claims is fully supported by the application as originally filed. Applicants have consequently been completely responsive to the Office action of 11/7/05 as required by 37 C.F.R. 1.111(b) and respectfully request that Examiner continue with his examination and allow the claims as amended, as provided by 37 C.F.R. 1.111(a). No fees are believed to be required by way of this amendment. Should any be, please charge them to deposit account number 501315.

Respectfully submitted,
